1965----

A YEAR OF DECISION.

AND THE FLYING SAUCERS ...

Having now reached another year we swiftly look back and as Saucer Students are pleased to note that there has been a steady but slow acceptance of that which we have contended for. over the past decade and more. viz.. the belief that we are being visited by craft and people from outer space and to the serious student who have delved deep into those facts, we cannot help but realise that the research work so admirably done by many of our outstanding men and groups has also given us sufficient facts to believe that these visitations are not just a contemporary affair, but such as has been going on for thousands of years of mans history on earth .

Such a fact however coupled with the logical conclusions of their ability to come from such distant places and the superiority of the manipulation of their craft as well as its construction being so far superior to man, leaves no doubt in our minds of the far greater scientific ability. This then leads us to contend that no people with such ability are without purpose and plan and the comparison of the past visits in history strongly confirms that fact i.e. they work to a purpose and design, which again raises another question, viz. Is that purpose one of friendly help to man . or one of antagonism.?. At least it is pretty sure that those who come from the outer limits are and have been always of a friendly nature to assist man , and it appears from the evidence certain types on mankind.

Having then acceded to this fact, one is faced with the problem of asking themselves What then is their plan or purpose for todays events.?

Beyond doubt it is friendly, further it is one associated with the trend of world affairs to a great clash of ideologies, which of course raises the question. Whose side are they on . ?. Which ideology do they assist. Despite the fact that some folk feel they are not interested in a squabbles one could not think such intelligent beings would favour a side which aims at the further oppression of man, or the flouting of Divine Law and Order for that Divine Law is not only operative on Earth but also in the Celestial realms , hence if there are those on earth , and there are very much so. who seek to use their powers to raise themselves above that law and at the expense of mankind and his enslavement. than surely we cannot believe that they who live so much in that Divine Law would be willing to be neutral

and thus by their silence indirectly become accessories to the overcoming of those who desire to raise themselves to live in the higher state of Law they , these visitors have arrived at long ago. rather it is only right to assume that there must be a right and a wrong side and that either way they will assist those who seek for that of right.

Immediately we hasten to correct any assumed idea that we believe that, the brothers from space are here to SAVE us from the consequences our follies have led us into. Rather we say emphatically that THEY ARE HERE TO ASSIST THOSE WHO CONTEND FOR THE DIVINE LAW AS LAID DOWN AND FOR WHICH PURPOSE THEY ARE HERE. ONLY WHEN WE ARE UNABLE TO ACCOMPLISH THINGS OURSELVES BY OUR OWN POWERS AND WE ARE LIABLE TO BE OVERCOME BY THE NEGATIVE FORCES WILL THEY SAVE US. BUT ASSISTANCE WILL NE THERE ALL THE TIME WHILST WE STRIVE FOR THAT WHICH IS FOR THE POSITIVE FORCES OF OUR GOD GIVEN DIVINE LAWS.

This brings us then to this year, one which we forecats to be one sf GREAT DECISIONS. a year od sorting out. a year of marshalling of both such sides hence the great importance of us knowing not only which side we are on . but also if that side is one whichaims at the fulfilling of Divine Purpose for the betterment of man. or one which has been fed into our minds as such but in reality is merely a plan for the enslavement of man. under the pretence of world government for the brotherhood of mankind.

The t,am is very ambiguous , and one cannot surely believe that a brotherhood of mankind can be made out of peoples so far apart as any races are today.

One cannot view the reversion to cannibalism by races on earth as being compatible to any decent thinking man, hence How can I call him a brother who having recieved at our hands education and upliftment. and who immediately he is left to his own management reverts to that which he has practied for thousands of years. Such a wideness of inherant powers of thinking surely makes us realise that any idea of protherhood of man as fed to us in propaganda is totally out of the question and impossible . Hence there must be another form of brotherhood which is able to make such possible.

THAT BROTHERHOOD IS THE DIVINE ONE (AND ACCORING TO DIVINE PLAN AND NOT A MAN MADE ONE WHO SEEK BEHIND THE SCENES TO make us all one family by turning us into a form of mongrel race. Such mixture of which is right down the whole line of Law and commandemnt is forbidden for the good of both parties.

It is these very serious questions which face man in this year .

It is the fulfilment of the scripture which says. " We are in the Valley of Decision . which way we choose will determine whether we are for the Divine Plan or mans. and will also mean which side we can call on for our defence in assistance , The forces of Light or of Darkness. it is just as it is just as simple as that . so that by simply asking one self the question , 'Is this in the Divine Plan as laid down for this world , or is this a man made scheme? Maybe to get to the root of that question you may have to dig deep into the forces behind some of your ideas which have been FED to you, in fact you will have to stop being led about by the nose and do a great deal of thinking for yourself. Events of the coming days will help you however if you are Really seeking to know the way. plus the fact that God has promised " If we lack wisdom , He will give it to us " If we seek soncerely enough.

Search into the origin of your findings. Does your idea spring from the source of Light. or does it spring from Demon worshipping . religions. Take a close look at the company some of your mealy mouthed leaders keep. and to whom many of you have been beguiled into believing are from the realms of the inspired

Search out the history of such , What has been their record in the past? What and how greatly have they raised their own race. or controlled mankind Does their record show one of poverty. filth. mental enslavement. ?. or is it one which shows that every where they have been . people have been LIFTED UP AND OUT of their lower environments and given the knowledge of health and self support. education schools hospitals, self government, all these things speak of Divine inspired Law and Order. but take a look and see what has been going on for hundreds , yea thousands of years in some cases. and you will see until such enlightenment was brought and given to them. squalor and disease and starvation was the common lot of such. Open your eyes to these things and you will not be left much in the dark as to which side to be on , and who are the Divine inspired one to stand by or those who are sSatanically possessed and have as their ultimate aim the further inspired enslavement of mankind.

A year of Decision yes. already begun but more greatly to be stepped up as we go further into this year. A year which will decide the next decade.

Watch for many well known people being removed from the scene. especially those who have in their power, the ability to thwart the inescapable plan of the Celestial Host. who now await whilst we come to our senses , and when the real conflict starts as it will despite all pretence of those who call peace when there is no peace. Watch out for economic upsets. Watch for early in March another world shocker. Some of you may not get this by then so we give you the date we type this one. Jan 10th 1965. although we gave this out during our New Zealand visit as we did also the month of Oct a month prior on our arrival there. We know now what happened Khrushchev got REMOVED. The British Government got REMOVED. may be not for the best but in the plan and a way made ready for another to took its place.

Maybe there are those who scorn our forecasts we are really sorry for them particularly when we see them aligning themselves with those on the wrong side. but people who can change face so quickly are not capable of the necessary discernment . and fall quickly into the very pit they condemned others for. We are not ashamed to be called names by innuendo. no one ever got far into the search of any truth without facing public ridicule and often the scorn of those supposed to be fellow workers, and herein is a good eye opener regarding some of your leaders. Do they pander to public approval and respectability. or as one sarcastic one put it recently as aiming to become VERY Respectable, and hurls out all sorts of claims as being OBJECTIVE. Well we too claim objectiveness. but are not afraid to stick our necks out even if we do get accused of having noises in the head. Thank God for those telepathic noises. we can PROVE they have saved lives. They have warned people of coming calamities. They have made predictions which have been proven later by world events and circumstances to be right on the dot, and also by scientific bodies and others to be correct although unknown to the one receiving the message and having the courage to expound it.

If such telepathic communication is not objective, and remember this is NOT Trance mediumship or anything akin to it. Nor are the methods adopted to receive it of the same. These telepathic messages (or noises in the head , as one writer put it) surely are objective, for they have PROVED by their fulfillment that such communication with the space brothers are possible.

1965 then will show itself as just such a year. One full of upsetting of powers and the alignment of the two sides more markedly shown and made clear.

The main thing is therefor to know what side you are on and what is the ultimate purpose in the side you choose.

We disdain to worry about name calling. for we are well aware that those who have gone before us, were treated the same way . hence can we expect to receive any better treatment from those who are not of us.

We stand by our FAITH and our CLAIMS, and we are not only SURE but POSITIVE we will be proven RIGHT. for we are of the LIGHT .not darkness.

The years of experience has taught us and shown us clearly that if we have the courage to take our stand that we will and are assisted by greater powers in every way. our recent New Zealand tour added greatly to this proof of such Divine Guidance.

The brothers in space await for our decisions this year. It is to be hoped that our readers will have the courage to dig deep and square themselves with their findings and make sure of the side they decide to align themselves with. for it will mean it for their good or otherwise what the result of that decision will be.

This may appear very doleful . but rather it is the opposite. for out of chaos will come order. beyond the dark clouds is the NEW DAWN .The pangs of the birth of the New Age, are but passing ones and are more than compensated by the birth of the new age child (THE KINGDOM OF GOD ON EARTH)

1965 is here WHERE DO YOU STAND?

VICTORIAN ASTRONOMICAL SOCIETY OPENS CONFERENCE TO UFO DISCUSSIONS.

The Ballarat Astronomical Society who are holding a Conference the last week in February in conjunction with that citys Bogonia Festival . Have invited representatives from all over Australia to participate in this, and allowing them to have speakers etc . to present the UFO case. this is allotted to two days . Friday and Saturday the 26th and 27th respectively.

Speakers from most of the states will be attending. a party of six coming from afar afield as Western Australia. and it will be also attended by such well known personal observers of UFO as the Revs. Father W.B. Gill. and the Rev Crutwell, his companion at Boanani Mission . and also the Rev Browning of Tasmania. who will be there to answer questions.

Slides will be shown by Mr. Ian Wannan of Adelaide. and other papers have been prepared by other folk. Your Editor has been at a late moment been asked to speak on the New Zealand Clubs as he saw them and they approach to the subject.

This is a very pleasing opening to the New Year and we are grateful to those people for at least having an open forum on the subject .for we are sure an exchange of facts by both societies will be very helpful to all concerned.

Your Editor will also give a full report of these two days and other matters of this Convention in the next Edition . and we feel much will be of benefit to all our readers.

POINT OF RETURN.

By the Late Morris K. Jessup.

So far we have been considering historical information on which to base a belief in the existence of U.F.O. . But now I want to break off to examine modern data.

Can the disappearance of planes be put down to them ?

On March 7. 1922. Flying Officer B. Holding set out from an aerodrome near Chester on what was intended to be a short flight in Wales. About seven O'clock he was seen near Llangollen, turning back and heading in the direction of Chester .

He was never seen again . He disappeared over a densely populated country.

The unexplained and unannounced crashes of aircraft over land are numbered in dozens. And while these crashes are not disappearances , there is a strong element of mystery in many of them .

It is the rule, and not the exception, that the major catastrophes come without warning . Whatever causes the crash seems to cut off communication simultaneously . Seldom is there any warning from the radio: only routine reports, and then silence---, until the wreckage is found with no survivors, and, in at least one case-- nobodies!

It is one thing for a solitary aircraft to vanish from above the sea without trace and without signals being heard. It is quite another for five military aircraft , flying as a group, all with full crew and radio, to pass silently and irrevicably from human ken.

There were 14 men aboard those Avenger Bombers which disappeared one day over Florida. As the hours passed the base and other aircraft on patrol listened hopefully on the radio channels . But no word came to tell of the whereabouts of the missing fliers.

The last routine message , recieved at 5.25. p.m. had given the position of the flight as about 200 miles north-east of Miami.

The hands of the clock crawled around to the point where the bombers' fuel supply would be exhausted . Still no word. Navy aircraft and ships were ordered out to cover the entire area from Key West northward to Jacksonville and 250 miles out to sea.

The Navy pointed out that the Avenger bomber was noted for its buoyancy. In similar emergencies aircraft had always remained afloat long enough for the crews to launch the life rafts.

One of the first rescue craft to roar off the water in search of the missing fliers was a huge Martin Mariner bomber with a crew of 13 that had been trained for just such work . IT too , disappeared without trace.

How could these aircraft, each with its own crew and radio facilities, disappear without even flashing a single message of explanation?. It was hardly logical to assume that they collided , killing all the crew members simultaneously.

" Point of no return"cont "

On August 2, 1947. the British South American Airways Lancastrian Stardust mysteriously vanished on a flight over the Andes. It would not have been so surprising if the aircraft had disappeared in the high peaks of the Andes. But these had been negotiated, and she was due to land at the airport at Santiago. Chile at 5.45.p.m.

At 5. 41. p.m. she sent out a signal stating her time of arrival. That is just 4 minutes from the airport, almost within sight of the control tower.. At the end of the message came a word " Stendec" , loud and clear and quickly spoken.

The Chilean Air Force operator of Sabtiago queried the word which he did not understand. He heard it twice repeated by the plane . No explanation of the word has ever been found.

The aircraft never arrived and the mystery has not been solved. Searches were made by ski troops and skilled mountaineers over an area of 250 square miles in vain .

That aircraft carried a crew of 5 men and there were six passengers. The pilot Capt. E.J. Cook , had crossed the Andes eight times as second pilot.

Four minutes from the landing strip----- What happened??.

In 1947 an American Super Fortress Bomber vanished when 100 miles off Bermuda-- the area of missing aircraft. In March 1950 , a U.S. Globemaster disappeared while flying from North America to Ireland, without warning and without trace.

A Pan- American Constellation , with 40 people aboard was on her way from South Africa to New York on June 20. 1951 .

The ship had left Accra . West Africa, for Monrovia, Liberia and at 3 p.m. the crew radioed that she was due at Robertsfield airport, Monrovia. at 3.15.p.m. The aircraft was never seen or heard of again .

Fifteen minutes with no troubles to report, and anticipating and eventless landing, this giant craft disappeared without trace or record--, no outcry from the radio.

I submit then that these disappearances are in the greater number than disappearances of people and ships in the past because our air age is proving of great interest to our space neighbors.

I suggest further , that these disappearances are but mere kidnappings by the space contrivances .. Are there any other explanations which staify all the questions. ?.

.....

EDITORIAL COMMENT .

The above facts given By the Late Mr Jessup are undeniable. but since this article was written many years ago more evidence has been to hand which adds to the number of such strange disappearances, but further also facts have come to light to suggest that these snatches if you can call them that. can be attributed to UFO. but that these UFO have an origin much nearer home than those which are coming from space. Franly we can no longer deny that evidence now points to more than one origin of these craft, and that some are hostile to people ON earth, and others which come from outer space have so far shown no real evidence of hostility but of peaceful intent.

MINERS ARE SAVED BY A VISION .

Last year in the USA a similar incident was given by miners in a disaster which caused quite a great deal of interest in the claims made by the men of having been encouraged to hope on. by an extraordinary vision of a man and a door way to which he pointed. In the light if that incident the following is indeed very interesting which has been sent to us by our correspondent in South Africa. of an incident very similar in character in that country .

VEREENIGING WEDNESDAY. Reported in " Argus" 25/11/64.

With nothing but prayer to sustain them , and all hope of survival gone, they were beckoned forward to safety by a white robed figure carrying a cross in the left hand , one of the three survivors of the Sigma Colliery fire disaster said here today .

Showing the effect of the 84 - hour underground ordeal through, gas, flames, and fumes, and without food or water , a 26 year old Basuto miner, Lichaba Muphiting , gave a graphoc description of the vision which saved him and his co-workers lastweek.

The irony is that Lichaba - who had planned to get married last Friday , th e day after his miraculous escape with two fellow workers.. need not have gone undergone the four day terror.

When the fire broke out the previous Monday he was able to reach the pithead safely. In his pwn words he pressed the button of the cage in the main shaft and then decided that he must go back to help his comrades "

Trapped with 12 other African miners , France and Sebastino among them , they retreated deeper into the mine to escape the deadly fumes.

While seeking refuge the miners tried one by one, collapsed and died of the fumes until only Lichaba France Fumo and Sebastino Macamo were left .

Their lamps went out, and feeling their way in the dark through a network of tunnelling they crawled through a rockfall on all fours.

" Lichaba said" We found a resting place . It was only for prayers. It was dark but we carried on our way till we found a way out.. We sat down again and prayed and said' God can take us', France and sebastino fell asleep but he found he could not sleep . He knew by then it was Thurs- day , because France had a watch .

Lichaba said " While the others slept he saw a vision , It was a figure dress- ed in a whitrobe, with a green girdle. The figure carried a cross in the left hand and beckoned to him .

I followed him for about 6 feet, and said I could not leave my comrades. Speaking to me for the first time in Sesuto the person told me to fetch them.

I woke France and Sebastino and asked them whether they could see the person infront of us. Thye said they could not. The figure beckoned to us again and we followed, I could see the person perfectly . There was light all around where he was walking , although it was dark all around us."

Suddenly all three of them heard voices around them crying out, " You people will die. You will never get out. but they continued to follow the figure for

some distance until he vanished from their sight.

It was then that they found an underground pipe against the rock face and followed it in the dark.

Suddenly they came across a Native miner.

Knowing that he would be shocked at the sight of them , they approached him carefully . "He had a big fright when he saw us, and was afraid of us and started running away"

Later they saw other miners working and realised that they had found their way to safety .

SHIFTING NORTH MAGNETIC POLE .
+++++++

Los Angeles Times. Nov. 4 1964

OTTAWA(AP) Canadian scientists say they have again caught up with the wandering north magnetic pole.

They found that the pole in the last 2 years has moved some 20 miles farther north and about 4 miles east to a new position at the southern end of Bathurst Island, approximately 1,800 miles north of Winnipeg .

The new position of the pole was determined by ground survey parties from the geomagnetic division of the observatories branch of the Department of Mines and Technical surveys.

Edward Dawson . , scientific officer with the division , said the position of the pole now is 75.5 degrees north and 100.5 degrees west.

In 1962 its position was 75.1 degrees north and 100.8 degrees west.

" The pole now is moving about five miles a year north and 1 mile a years east, " Dawson said .

Comments. ...Such an amount of 5 miles a year is certainly something for consideration , and surely can be contributive to our changing seasonal weather all around the world, if not wholly , at least partially the cause.

Such facts have been discussed by many saucer students, and an expectancy of shifting poles even greater have been predicted by many for some time past particularly those who have claimed contact with saucer folk , literally , and also telepathically. so again we are not surprised at such an announcement from official circles is encouraging for us in that it confirms what we have claimed for some time but have not had the official scientific backing to prove our claims. here again is where the objectiveness is carried out in having the courage to declare such and wait for proof from higher circles later meanwhile being prepared to be ridiculed and called fools. etc.

How often we have read something in a saucer book which has lacked some official proof of acceptance only to find later that it has been confirmed. Adamski.

Kraspedon. and others have made some pretty bold statements from time to time which have been highly questioned by many , but time has already proven some of their claims true. , surely this behoves us to have the courage of our convictions and if not altogether " Respectable" at least objective enough to be sure that sooner or later we will be accepted in our theories as right .

AN UNUSUAL TELPATHIC EXPERIENCE CONFIRMED.
BY THE EDITOR.

=====

The following is an experience of the Editor during his recent New Zealand Tour and he now recounts it because of the many confirmations which, he received then as the story will show, and now more strongly confirmed by a News paper cutting which he has just received from his firm associate Dan Saunders of Auckland.

For obvious reasons the Name of the city will not be given although it is known to many as well as those connected with the story and thus can be verified by them. The reason for withholding the name is that the Editor does not want to be labked as a scare merchant. or create a cause for panic. However the facts are undeniable and now that official warning has been given to the City. he merely relates the incident for the evaluation of his readers.

The Editor and his sister had reached this city on a morning when a heavy gale was blowing and rain belting down caused no happy thoughts to start with. The next day it was necessary for the Editor to leave for Napier, a long J journey to fulfill his promised visit to the folk in the Hawkes Bay area, a very pleasant time full of happy memories.

I would confess that I had strange feelings about going to Napier as it was here in 1931 that a huge earthquake occurred and completely wiped out the city which was rebuilt into its present stage. a beautiful place indeed. I thought maybe I would get some vibrations of the instability of this place, however strangely I felt none, in fact the very reverse.

Two days later I returned to my sister at the place mentioned. only to find her in a very bad state of depression so much in fact that she felt she wanted to abandon the tour and return home. after a half an hour reasoning with her, I managed to cheer her up. but was very surprised that she was so upset as she is a very strong character and hard headed business woman, certainly not given to emotional upset and defiantely not psychic.

Retiring to my own room, feeling tired after the long journey from Napier I laid down on the bed. and within a few minutes began to feel extremely depressed and morose almost as though some awful thing was pending and one which had dire results.

I could not understand it. as I had returned in very bright spirits from Napier, the local people had made my stay so wonderful and full of fellowship. I tried to explain away logically this sudden overwhelming sadness and ill omomed brooding. I tried to throw it off, as some reaction of myself of weariness, but I could not.

I began to realize that this was no ordinary thing that something was causing this which was not of the ordinary, so I knowing how to examine such things in the light of spiritual guidance and communion. I relaxed completely. prayed a short prayer for guidance. and asked the brothers in space to assist me in my quest.

I had hardly finished this short appeal of petition. when the telepathic thoughts come flooding through. here are the details.

" You must not concern yourself about this. both your sister and yourself have picked up the vibrations of this city. which is a doomed one. " I asked " In what way do you mean doomed? ". The answer came back " It will be rocked by earthquake " This shook me badly. and I said " When? ".

Strange Telepathic ex. cont.

I waited for some time and got no answer. I repeated the question and again no reply. but after a few short moments the words " 3 to 5" came repeating themselves three or four times. I was frankly puzzled.

The telepathic vibration ceased. and I lay there amazed and wondering. Frankly and in all truth I can swear I had no knowledge of the potential of this city or any other in New Zealand except those which I had read about and which had already occurred. as stated like Napier.

New Zealand is commonly nick-named the shaky isles. but to a visitor the places shaky unless beforehand studied, would not be known to them. so that I can honestly say. I did not know if this city was such a potential area of geographical weakness. in fact I was surprised.

I pondered on what had happened. and decided that for the time I would not make mention of this to anyone. least of all publicly. I did not want to embarrass my hosts in the places which had been planned for me to visit by bad publicity as being a scare monger. so I decided to keep mum, yet I knew from my past experiences that such information relayed to me from space by telepathy, had never been wrong. in fact dramatically true in every detail.

A week later I found myself on the South Island at Blenheim, and here we were met by the local committee of ladies who graciously took us to afternoon tea. It was here that the hostess asked me a question which made me sit up with a start in her reply to my answer. for she said " How did you like.....? Guardedly I said. " Frankly not very well, we were very depressed there" This I felt cogered the truth without making any comment on what caused our depressed feelings. She replied quite openly. " Oh thats no wonder seeing it is a doomed city" I sat up amazed. and said " What did you say" She repeated her statement". What makes you say that ?" I said.

She then related how that she had relatives etc in that city who were attached officially to civic bodies and said they had told her that they had been alerted some long time back to always be on a 24 hour alert for a bad earthquake to happen. I could not help but then tell my audience some five or six women of what had happened and said I was amazed and yet should not be as the messages recieved in this way had never failed to have confirmation given. but I still decided to hold the thing from any public statement. for after all there would be those who would say " Just mere coincidence" But there was more to follow.

Some time after this we had reached Timaru. and here in the lovely fellowship and home of Fred and Phillis Dickeson. who took us to their hearts. in a quiet moment I confided to Fred and his wife. the incident and the confirmation given by the lady at Blenheim.

That night it was arranged that I was to visit and be introduced to Mr. X. who had been visited by spacemen and whose claims had caused quite a stir among the flying saucer folk of New Zealand, some who believed him, many who just waited for more evidence, others who openly scorned his story. My own findings I repeat from the last magazine briefly. in that I found him to be all he claimed to be. and certainly every detail of his story coincided with things I myself had been told by space people.

We were seated in his sitting room when his wife came in from the kitchen and said " Oh I forgot to tell you... about a fortnight ago I had a sort of dream vision and I saw the city of in ruins. IT IS A DOOMED CITY"

Strange telepathy. cont. 3

I shot a llok across at Fred Dickeson. who said something of surprise I cant remember , and all present could see we had been startled by the statement of Mr. Xs good wife. I felt I had no alternative but to tell what had happened previously and that this was the second confirmation of the event We discussed it at length . and tried to find an explanation of the words 3 to 5. Here are some of the questions and theories we proposed.

Did the 3 to 5 mean months , weeks . or years. ? Was it the time of the day when it would happen ? This I felt myself may havebeen the right one, but truthfully had no definite leading on it, and finally we had to leave it at that . i.e. we had no real answer to that cryptic message of figures .

A week or so later we found ourselves in Christchurch. that beautiful City of the South,we loved it very much .

It was here as in other places we found the strange guiding hand controlling our affairs, for we had been posted to stay at a large City Hotel , but at the last minute were transferred to a quiet Guest home more to our liking It will be seen why. we had been moved around unexpectedly.

The proprietor of this place was very interested in Flying Saucers, as was also the housemaid and her husband. who had a large collection of books on the subject. This of course made very happy company .

It was right at the last day about 4 hours before leaving the proprietor said.

" I was most interested in the claims of telepathy. have you had any on New Zealand?" I hesitated for a while then felt I had the green light so said,

" Well one very definite one which seems to have been confirmed and I told him of the experience and the subsequent results. He almost laughed and said

" Well you wouldn't have to get a very strong vibration to pick that up, for its well known in the scientific world here that such can happen at any time they expectit" I looked surprised and said. " Can you really confirm that?"

" Of course, my son is a student at the Canterbury University, and he tells me that such a fact has been discussed and expected for some time and that when it does occur it will be a whopper" he replied. I asked him " Can you give me any idea what the words 3 to 5 could be. ?" He said " Yes, I feel it was the official intensity which it will record at the time. on the seismic chart. " This I felt was quite a very good answer, and seemed of all so far to be the nearest to the correct one. But even now cannot say that it is.

Well here was number three confirming this very happening.

A fortnight later found us in Rotorua. and here I was interviewed by a very fine young and very courteous reporter indeed , in fact all my such interviews throughout New Zealand gives credit to the T.V. Radio and Newspaper men in the way they handled and treated me.

After a short interview . very well written up next day.He asked me how I liked New Zealand. I replied in the highest of praise of all we had seen and met.

" How would you like to live here?" He psed to me. "Smilingly I said " Well in some places , but not in others. " " Any particular one you did not like,?" he said. " I replied " Well I wouldn't like to live in"

" That's not surprising" he said " Its a doomed city" I Really got a shock this time, and asked why he said that. and he told me that a major catastrophe was expected there for some time , and all the news men knew it "

Here was number four. all folk from different walks of life telling me what had been told to me in my ignorance many weeks now past .

Strange Telepathy cont 4.

How could I doubt the truth conveyed to me. Here I had been led into the presence of 4 witnesses to confirm what had been told to me by telepathic means surely this could not be coincidence?.

Who could doubt it under such circumstances. and especially the last two. because out of the thousands of people I could have been led into contact with I find a hotel keeper. and a reporter who tell me they knew this.

I confess I felt as always when such matters occur , very humble that I had been entrusted with this information.

And today I recieved this cutting from my friend from the " Auckland Star" of Jan 2nd 1965.

" The people of are being warned as never before to expect a major earthquake one day .

A top geologist interviewed by the " Evening Post" reminds people that insuch a case. the ordinary house hot-water cylinder contains enough water to meet a family's needs for cooking and drinking, for a fortnight"

Well surely this is indeed objective enough for anyone. and we are dealing remember in the lives of people. What more do our critics want to prove that the " sarcastically termed " Noises in the head" we receive are phoney. we would suggest they come up with as real an experience with as many witnesses to prove their objective claims.

Well folks thats it. We can only await the future and hope that many lives will be saved and even if the city is to go. that those living in it will not perish for we met some very lovely people there, great souls. who know the Truth. we are sure they will find a way OUT . To them we say.

" A thousnad may fall at the right hand. BUT IT SHALL NOT COME NIGH THERE. " This is to those who are on the right path .

SIGHTING IN ADELAIDE.

28th Jan. 1965.

This morning the Editor recieved a phone call from a young man who was most anxious to report " something most unusual " which he saw last night .

He said he saw a large about about two thirds the size of the moon travelling fast across the sky from North to South . at terrific speed, actually taking about 3 minutes to cross the whole horizon .

It intrigued him for it was blunted at each end, with one end larger than the other and " a knob circular centre" this we found a little amusing to hear such a description for what was obviously the central section of the craft. He said it was a brilliant white and lit up the sky. but added that it seemed as " though it was travelling in a milky way of its own. " which moved along with it.

The observation was approximately at 9. p.m. to 9. 5. at the most .

What puzzled him also was that "the blunt end was at the rear and the smaller snubbed end was in the front. " in his idea of objects in flight he thought it as in an aircraft. the larger end would be first with a tapering of the other end for aerodynamic purposes. This is at least how he calculated it. Generally speaking he admitted it was saucer shaped. (DRAWING PAGE 17)

" FLASHING OBJECT A SATELLITE"

BUT WAS IT ?.

ADVERTISER 7/12/64

Adelaide.

A flashing object which several Adelaide observers reported travelling in a south-easterly direction last night, was probably a tumbling satellite. Mr Ron Marcus, and Adelaide Moon watch spokesman said .

Tumbling satellites appeared as blinking lights when they reflected the rays of the setting sun.

There were now 15 orbiting satellites visible to the naked eye.

.....

The above is as reported by the newspapers. but your Editor received a report early that morning relating the experience of a lady who lives in the hills near to Adelaide and which happened at the same time as the so called satellite appeared to be observed by many other people.

She stated that it came across the sky. and she would not have seen it . but that it lit up her room like a great ray of moonlight. She called to her family who also witnessed it as it flew across the sky. and lit up the whole countryside like clear moonlight.

We do not argue that many sightings can be attributed to satellites but we fail to see that such can send a moonray into a room sufficiently to light the same up quite clearly or that it would be strong enough to flood the countryside with moonlight effect . How much longer do we have to take this baloney as official statements to be unquestioned.?

Further this lady is NOT a saucer fan . nor does she view the subject very favorably. but she was honest enough to report it to our associate. and said she could offer no explanation .

Surely no sane person could accept such an explanation . even if it was not a saucer .

SIGHTINGS REPORTED IN SOUTH AUSTRALIA
LATE IN NOVEMBER .

The following reports were received by the Editor on his return from his tour in New Zealand, and owing to pressure of time and other matters he was unable to make the usual investigation but hopes to get details as best he can from the observers. who at the moment desire to hold the information however the salient points are as follows.

Tintinnara. A aerchasing incident again occurred and scared the drivers of a car passing through the town. This is close to the area of many sightings and also car chasing has occurred here at least twice before over the past 12 years.

Switching to the extreme of the State at Burra in the North close sightings were received as reports. but details are hard to get as the observers clam-

Blanchetown . a Murray River township where many sightings have been reported in this locale over the past years. Here three or four residents seen objects which by their description were undoubtedly had all the ear marks of ' saucers'. however we so far have been unable to make personal contact with the observers.

OPAL FIELDS HAVE SIGHTINGS.

We have received a report handed down to us of very close sightings in this area, but cannot get the names of the actual people, due to the fact that the person they reported it to will not reveal their names. but told us that he was certain they had seen Saucers at close range.

NEW ZEALAND.

On the night of Nov. 20th Friday , 1964 at 9.30 p.m I was climbing up a steep track leading to the lights at Browns Bay , Auckland.
On arriving at the top I was surprised to see a bright light in the sky, round in shape and passing less than a quarter of a mile ahead in the sky .

The object made no noise and was travelling at considerable speed from the sea towards the direction of the aerodrome.

The moon was rising at the time and the light I saw could have been the light of the moon reflected on the object, but also could have been the objects own light .

It was travelling on a definite route , and was soon lost to view over the horizon. It would have been hard to make a definite estimate of the speed. The same object was also seen by another North Shore resident. at the same time.

We have been assured by our co- worker Dan Saunders that the above report is genuine and that he can affirm that the observer was well qualified to know the difference of the object from a satellite or any other earth known object in that he is an ex Air man.

MYSTERY RADAR SIGHTINGS.

WASHINGTON Jan 6. 1965 . (Adelaide Advertiser.)

The US Navy said yesterday that the Air Force were investigating radar sightings near Washington on Dec 29th of two unidentified flying objects.

" The two radar operators observed two objects on their scope approaching at about 4,800 miles p. Hour. from 30 to 40 miles south of the Patuxent Naval Air Station in Maryland.

The objects approached the airfield . executed a right turn and disappeared from the radar scope." A Navy spokesman said.

" I TELL YOU I SAW ONE"

DESERT NEWS . SALT LAKE CITY. U.S.A. Oct 24th 1964

The Deseret News and law enforcement agencies were deluged with calls Friday night and early Saturday about unidentified objects seen over southeast Salt Lake City about 3.30. p.m.

An unidentified woman said she saw the objects as she was doing her laundry. Her description was essentially the same as that given by several other observers " They were white and disc-shaped " She said she watched them through binoculars as they flow out of sight beyond Mt. Olympus.

" I didn't know what to think , as I looked at them in the binoculars, " said Thomas McLelland, 14 year old son of Mr and Mrs Kent McLelland.

" Frankly I was scared . There were two of them and they definitely looked like saucers, with the bottoms rounded and the tops not so rounded."

" I saw them fly north and east and follow the contour of Mt. Olympus until they disappeared into the trees," He said he kept watching the area but they had not reappeared by 4.40.p.m.

Lee Sjoblom, 12 , son of Mrs Paul Sjoblom. also described the objects as " white and disc-shaped." They rendezvoused over Mt. Olympus and Millcreek Canyon area. , he said.

A few descriptions varied from the majority.

One woman , a resident of east-banchn, said " one was orangish-red and one silver. Both were shaped like eggs."

One boy said there was only one object and it was rounded shaped with a dome on top. while Mr. Leon Ottley, saw the object with four boxes on it. It was white or silver and was in the vicinity of Mt. Olympus."

The Federal Aviation Agency, when asked about sightings by the Deseret News said. " We're discounting the reports. None of our towers spotted anything and no weather balloons were up at that time" a spokesman said.

" Of course there is the possibility that a gas station or some other business has released some-gas-filled balloons," he suggested.

Whatever the objects were, balloons or interstellar buggies, its plain that old flying saucer reports never die. they just fade away- and then come back again .

As one witness said. " It seemed to fade away and come back, fade away and come back again. I never saw anything like it"

Now THAT most people can believe.

Sightings cont.

15/1/65. OBJECTS SEEN BY RADAR IN NEW ZEALAND. " Adelaide " Advertiser)
WELLINGTON JAN . 14th 1965

The Royal N.Z. Air Force. is investigating mysterious objects seen by a Qantas airline pilot on his radar screen last night .

The RNZAF. deputy director of operations (Wg- Cmdr . A.F. Tucker) said today " The sightings were made by an experienced aircrew. We must take it seriously."

The objects were seen by an Electra crew when the aircraft was 300 miles from Auckland bound for Sydney .

The objects were flying eastwards in a Vee formation at 45,000 ft.

The sightings were also confirmed by radar by the NZ Civil Aviation Dept.

The Chief Director of N.Z. Air staff (Air Cmdr. T.F. Gill) said today the sightings could be due to sunlight catching ice crystals in a high cirrus cloud.

.....
Editors note. Again. we have fully experienced pilots who should know what they see and certainly are capable of estimating same. being made fools of by the higher ups. Radar can't lie. as in two cases here. also since when did ice crystals travel in vee formation . Also note how adroitly the official leaves the way open should the matter get to much publicity and lest he be made a fool he ambiguously says " IT COULD BE " not it is. he offers no proof whilst those reporting the sighting offer the evidence of their own experience and two radar screens and those who man them to boot as witnesses. We leave it to you to determine if this is not another case of the old runaround game of hide and seek.

..... FURTHER REPORTS FROM N.Z. RE ABOVE

PRESS ASSCTN WELLINGTON 14/1/65

Seven unidentified flying objects were picked up on radar over Tasman Sea at 8.50. last night.

The objects were flying at about 45,00 ft. in an easterly direction. in a V formation .

A Civil Aviation Department official has confirmed the sighting .

" We have recorded them as unidentified flying objects" he said " .

It was possible however that the objects were cloud formations caused by high winds at considerable altitude. he said.

.....
In a later report on Sat. a spokesman said the N.Z. Air Force were quite satisfied that the objects were 'ice crystals' in a high cirrus cloud at sunset.

..... ANOTHER NEW ZEALAND SIGHTING.

FRIDAY THE SAME DAY AS ABOVE.

TAURANGA.

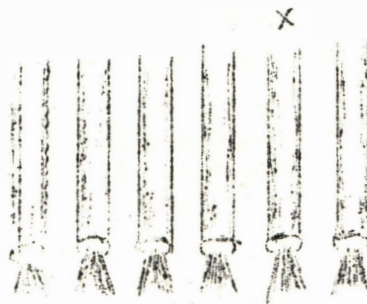

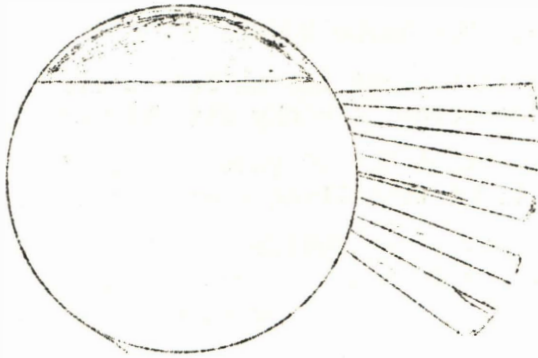

Three unidentified flying objects were seen travelling north above the Tauranga harbour at 2.50 a.m. today by Mr . John Cresswell. , a member of the Tauranga Harbour Board's watch office staff .

Mr Cresswell said he saw three large circular lights, one slightly ahead of the others. They were moving quite slowly and took about two minutes to disappear from view.

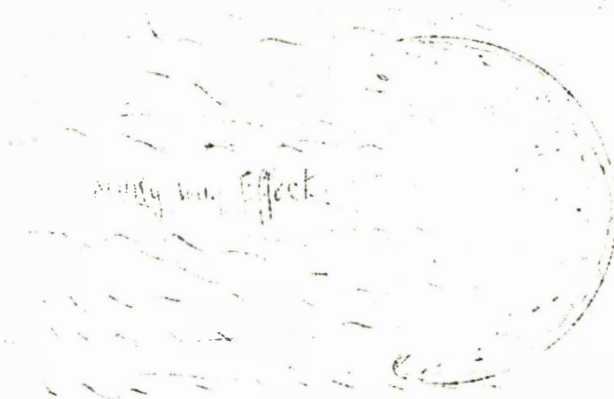

ED. Probably some of those ice crystals getting ready to form into shape and move into the eastern bound flight .

U.F.O. OVER ADELAIDE. 27/1/65

Report on P.12.

Official announcement over T.V. in relation to the above sightings many reports coming in later confirming it. was that "there could not have been a UFO in the sky as no radar had reported picking up such an object, and these would have registered it if such had been the case. ". This despite, not one but many witnesses saw it and even drew pictures of it, all coming from various angles around Adelaide.

U.F.O. OVER GISBORNE NEW ZEALAND.

(See Previous page for diagram given by Observer)

10th Nov . 1965. "Gisborne Herald."

A Morere farmer last night saw an unidentified flying object which he traced for eight minutes across the sky with high-powered binoculars.

Mr.T.C. Foss said that his 15 year-old son John had called his attention to a bright white light travelling from west to east across Gisborne.

" By the time I got my binoculars it had gone, but then I saw another object travelling directly towards us from the north . I fixed my glasses and focused on it . It was so clear that I was able to draw a plan of it," he added.

Mr Foss described the object as shaped like a round disc with fanned sides and straight at the back . " There were a series of blue glows on the side which seemed to rotate and a straight series of bright jets at the back ." he said . " The object was very large and travelling in a sinuate flight course, at a rapid speed. "

" I have never believed in things like this before, but now I do." said Mr .Foss . " My son and one of our workers saw it and I rang neighbours who also saw it, but not as clearly as us because they did not have any binoculars. "

In a further report with the diagram given the Gisborne Herald stated.

The drawing is his own impression of what a Morere farmer, Mr. T.C. Foss , saw in the sky at Morere last week.

The objects on the side had the appearance of rotating light beams, and the six objects at the rear were described as a series of bright jets.

Mr Foss was using very highly powered binoculars but was unable to discern what linked the tail of the disc with the rear jets.

The New Zealand representative of an overseas organization interested in UFO has written to Mr Foss , seeking further information on the sighting and seeking permission to have the story of the sighting recorded in an overseas technical publication .

The leading edge of the disc outlined with a dark single line and the shaded portion immediately behind it were glowing hot, with a major heat on the forward leading edge of the object .

Our representative interviews Mr. Foss.

Credit to Mr A, Allen Panoramas rep.

He says . " I have had an interview with Mr . Foss who lives about 40 miles out on a farm . His son first saw it about 8.p.m. The evening was very clear at their view unobstructed as they are about 1000 ft above sea level. They used 3 inch lens binoculars of world war 11 variety very highly powered, The first sighting had passed but the second gave them a clear view through these. They rang the neighbours on the party line all of whom saw it. It was also observed by a young man at the Gisborne Hospital and mentioned it to Mr. Foss' daughter who is a nurse at the Hospital .

Mr Foss said that the size of the object and the lights were frightening at first and that the dark portion of the circle at the top was white hot.

" The leader edge " as he called it. The all white portion was only star

bright, the five rays at the side were dazzling bright, The six jets below could not be connected to the main portion, or so it seemed they were violet - blue flamed, almost undescrivable , and the one marked "x" had a golden colour under lining , they were perfectly calibrated.

The flight was from North to South and took 5 minutes to cross from point to point , it appeared to be disc- shaped or saucer like top.

Mr. Foss said that he had witnessed the crossing of the sputniks and other satellites but this object was 4 times higher than these things.

In a second visit to Mr . Foss our representative Mr. A Reynolds relates that Mr . Foss stated that probably the object was a mother ship, and he estimated the jets to be about the size of the large gun on a battle ship, or even larger.

Other people were interviewing him and he was asked by one " Do you believe in Jesus Christ?" His reply was " Yes", " But you have never seen Him" to this he storted. " The same applies to these UFO I suppose , when you see one you know"

Wednesday. Feb. 3rd 1965. Two reports received here of object which appears to be the same both at the same time early morning of Wednesday .but from 2 different points of observation each confirming the other sighting
A large object saucer shaped appeared from the S.W. and going to N. East. moving at terrific speed and taking about 4 to 5 seconds to cross the line of vision , One observer was a complete sceptic before and now is a firm believer. the other an Italian migrant. was so excited it was hard to understand him at first , but after asking him to speak slowly . it was evident he had seen some thing which had really scared him , confirming the other report he said, " It passed right over our heads and we thought it was going to fall near us" The other observer said it passed right over his home and was low down .
